Singapore – A Garden City

Singapore is made up of not just one island but a main island with 63 surrounding islets. The main island has a total land area of close to 700 square km.

However, its compact size belies its economic growth. In just 150 years, Singapore has grown into a thriving centre of commerce and industry. Its former role as an entrepôt has diminished, as the nation has increased its manufacturing base.

Singapore is the busiest port in the world with over 600 shipping lines sending super tankers, container ships and passenger liners to share the busy waters with coastal fishing vessels and wooden lighters.

One of the world's major oil refining and distribution centres, Singapore is a major supplier of electronic components and a leader in shipbuilding and repairing. It has also become one of the most important financial centres of Asia, with more than 130 banks. Business dealings are facilitated by Singapore's superb communications network which links the nation to the rest of the world via satellite, 24-hour telegraph and telephone systems.

Singapore’s strategic location, excellent facilities, fascinating cultural contrasts and tourist attractions contribute to its success as a leading destination for both business and pleasure.

NTU – A Garden Campus

A research-intensive public university, Nanyang Technological University (NTU) has 33,500 undergraduate and postgraduate students in the colleges of Engineering, Business, Science and Humanities, Arts & Social Sciences. In 2013, NTU had enrolled the first batch of students at its new medical school, the Lee Kong Chian School of Medicine, which is jointly set up with Imperial College London.

NTU is also home to four world-class autonomous institutes – the National Institute of Education, S Rajaratnam School of International Studies, Earth Observatory of Singapore, and Singapore Centre on Environmental Life Sciences Engineering – and various leading research centres such as the Nanyang Environment & Water Research Institute (NEWRI) and the Energy Research Institute @ NTU (ERI@N).

A fast-growing university with an international outlook, NTU is putting its global stamp on the Five Peaks of Excellence: Sustainable Earth, Future Healthcare, New Media, New Silk Road and Innovation Asia.

NTU has a satellite campus in Singapore’s Science and Tech Hub, One-North, and is setting up a campus in Novena, Singapore’s medical district.

| **NOTE!** Medical Declaration | Exchange students are strongly encouraged to highlight any medical conditions that they may have during the submission of their online application. This information is for the purpose of assisting in caring for you while you are attending Nanyang Technological University. |
| **NOTE!** Are exchange students required to purchase the NTU Group Hospitalisation & Surgical Insurance? | ****COMPULSORY PAYMENT****  
All exchange students are required to purchase the compulsory NTU Group Hospitalisation & Surgical Insurance (GHSI) even if they have already bought similar insurance in their home country.  
Falling ill and being hospitalized in Singapore can be a financial drain on international students, who are not entitled to the medical subsidies that Singapore citizens enjoy. Besides the coverage it provides, the GHSI (subject to its terms and conditions) allows you to request a Letter of Guarantee from the underwriter and present it in lieu of the requisite deposit upon admission to government/restructured hospitals in Singapore  
For more coverage details, please refer to [www.ntu-ghs.com.sg](http://www.ntu-ghs.com.sg) |

The Asia-Europe Meeting’s (ASEM) DUO Fellowship Fund aims to promote student exchanges between European and Asian ASEM member countries. Under this fund, the DUO-Singapore Exchange Fellowship is awarded by the Singapore Government to Singapore and ASEAN students studying in the Nanyang Technological University (NTU), National University of Singapore (NUS) and Singapore Management University (SMU). The Award is also open to students from European ASEM countries (who come from universities with fee waiver arrangements with NTU, NUS and SMU).

The Award, based on merit, is for a pair of exchanges between a university in Singapore and its respective partner university in Europe in any academic field. There is no bond imposed by the Singapore Government for the Award, which is open to both undergraduate and postgraduate students.
