Singapore – A Garden City

Singapore is made up of not just one island but a main island with 63 surrounding islets. The main island has a total land area of 682 square km.

However, its compact size belies its economic growth. In just 150 years, Singapore has grown into a thriving centre of commerce and industry. Its former role as an entrepôt has diminished, as the nation has increased its manufacturing base.

Singapore is the busiest port in the world with over 600 shipping lines sending super tankers, container ships and passenger liners to share the busy waters with coastal fishing vessels and wooden lighters.

One of the world's major oil refining and distribution centres, Singapore is a major supplier of electronic components and a leader in shipbuilding and repairing. It has also become one of the most important financial centres of Asia, with more than 130 banks. Business dealings are facilitated by Singapore's superb communications network which links the nation to the rest of the world via satellite, 24-hour telegraph and telephone systems.

Singapore's strategic location, excellent facilities, fascinating cultural contrasts and tourist attractions contribute to its success as a leading destination for both business and pleasure.

For more information on Singapore, please visit the official Singapore Tourism Website: http://www.yoursingapore.com/en.html
ABOUT NTU

NTU – A Garden Campus

A research-intensive public university, Nanyang Technological University (NTU) has 33,500 undergraduate and postgraduate students in the colleges of Engineering, Business, Science and Humanities, Arts & Social Sciences. In 2013, NTU enrolled the first batch of students at its new medical school, the Lee Kong Chian School of Medicine, which is jointly set up with Imperial College London.

NTU is also home to four world-class autonomous institutes – the National Institute of Education, S Rajaratnam School of International Studies, Earth Observatory of Singapore and Singapore Centre on Environmental Life Sciences Engineering – and various leading research centres such as the Nanyang Environment & Water Research Institute (NEWRI) and the Energy Research Institute @ NTU (ERI@N).

A fast-growing university with an international outlook, NTU is putting its global stamp on the Five Peaks of Excellence: Sustainable Earth, Secure Community, Healthy Society, Global Asia and Future Learning.

NTU has a satellite campus in Singapore’s Science and Tech Hub at One-North, and is setting up a campus in Novena, Singapore’s medical district.

**Track 1: Chinese Language & Cultural Studies (6 AUs)**

**Date**: 2-27 July 2018

### Overview

Delivered by NTU's Confucius Institute, this track is designed to equip students with basic Chinese language skills as well as expose them to the intriguing Chinese cultures. It consists of 2 parts: Chinese language and Chinese Cultural Studies. It will be conducted over 4 weeks, Mondays to Fridays, 9.30am – 5.00pm, at the NTU campus.

### Description

**CF9001**  
**Part 1: Confucius Institute Basic Chinese Language**  
*(3 AUs)*

The Chinese language course is specially designed for students with little or no background on the language to gain insights into the Chinese Language.

The course contents are topics-based to help you master basic conversational skills for daily usage. Basic reading and writing skills are also introduced to help students accumulate Chinese vocabulary and enhance their learning of the Chinese language. Through an experiential learning approach, students will have to perform several assigned activities to enhance their learning and understanding of the language.

At the end of the course, students will be able to understand and construct simple phases, conduct basic conversations as well as learning how to write basic strokes, character components and single-component characters. They can expect to learn up to 260 Chinese characters, 40 grammatical points and 300 commonly-used sentences.

---

**CF9001**  
**Part 2: Chinese Cultural Studies**  
*(3 AUs)*

The Chinese cultural studies course aims to expose exchange students to the interesting yet unique aspects of the Chinese culture found in Singapore. As Singapore is a melting pot of the East and the West, students in this course will also be introduced to the Malay, Indian and other cultures to help them better appreciate multi-cultural Singapore.

By understanding the development of the history of the Chinese in South East Asia, student's understanding of the Chinese culture in Singapore will be enhanced through and aesthetic aspects of Chinese ink painting, Chinese paper cutting and Traditional Chinese Medicine.

Appreciation of unique Chinese culture will be further enhanced through field trips (e.g. to selected places-of-interest which has significant Chinese Cultural Heritage).

**Business Finance**  
(3 AUs) | This course provides non-business and non-accounting students with a broad understanding of the principles and practice of Business Finance/Financial Management. By the end of this course, students would have acquired sufficient finance knowledge to understand and appreciate how various financial decisions can have significant impact on the Profit/Loss and value of firms. They would also be familiar with pricing of stocks and bonds.  
This is a basic course in finance with emphasis on the major financial decisions made by companies and the valuation of investments made by them. The course starts by examining the various forms of businesses and the importance of interest rates. Time value of money, and the linkage between risk and return, lays the foundation for evaluating the price of bonds and stocks. Students will learn and apply principles of capital budgeting (calculating the profitability of various projects and deciding which one to proceed) and capital structure (financing approved projects by issuing shares or bonds, or using retained earnings). The course concludes with the evaluation of whether a company should use extra cash to pay dividends or repurchase its own shares.  
**Course dates:** 25 June to 3 Aug 2018 |
Track 5: New World, New Technologies (3 AUs per course)
Date : 2-27 July 2018

OVERVIEW

This track introduces the world of 3D printing, bio-printing and their applications in the real world; with exciting courses on energy and cyber security being added recently.

The courses in this track will be conducted over four (4) weeks at the NTU campus. Each course carries three (3) academic units (AU).

DESCRIPTION

<td>This course aims to provide a general understanding of bio-printing. Bioprinting is a multidisciplinary technology that merges the fields of cell culture, biomaterials science and mechanical engineering. This is a new manufacturing paradigm that has huge potential impact in the development of advanced biological tissue models and medical therapeutic products. The course starts with introduction to tissue engineering and scaffolds for tissue engineering. Various bio-printing processes will be explained and the materials for bio-printing will be introduced. The students will also learn about cell sources and 3D cell culture techniques. Other topics include computational design and simulation in bio-printing. Students will also attend a workshop on bio-printing to be exposed to the operation of a bio-printer.</td>

ENTRY REQUIREMENTS

All international students studying full-time in Singapore are required to apply for a Student’s Pass unless the short course (with single programme module) can be completed within 30 days. You will be required to apply for a Student’s Pass should you be attending a short course with multiple programme modules. More information on the type of Pass to apply for will be provided in the e-Welcome package.

**Entry Visa and Social Visit Pass (SVP)**

Nationals holding travel documents from selected countries will require a visa to enter Singapore. An entry visa is not an immigration pass. It is a pre-entry permission for the holder of a valid Singapore visa to travel to, and seek entry into Singapore. Visit [Singapore’s Immigration and Checkpoints Authority (ICA) website](https://www.ica.gov.sg) to learn more. You may enquire with the Singapore Embassy or Consular office in your Home Country on the process for entry visa application.

A holder of a valid entry visa who is found suitable for entry into Singapore will be issued with a social visit pass to enter and remain in Singapore. Students are advised to check their passport for the SVP endorsement on their passport when they enter Singapore and take note of the period of stay granted before leaving the immigration checkpoint. The period of stay granted is not tied to the validity of the entry visa.

**Entry Visa and Student Pass**

Students applying for Student’s Pass are required to submit the eForm16 and pay the processing fee via the SOLAR (Student’s Pass Online Application and Registration) system upon receipt of the SOLAR form from NTU. You will be issued with an In-Principle Approval (IPA) letter should your Student’s Pass application be approved by ICA. For students who require a visa to enter Singapore, a single journey visa will be incorporated in the IPA letter. Click [here](https://www.ica.gov.sg) for more information on the application of Student Pass.

**Note:** Students are advised to arrange for their flights only AFTER the approval of their student pass application.
## Approximate living costs

The cost of living you incur will depend on your lifestyle.

On an average, student should prepare an estimate of **SGD$1,000-$1,500** per summer course for basics such as food, transportation, personal expenses. This does not include personal holiday travels and entertainment costs.

## Health, Wellness and Insurance (included in the administrative fees)

**Group Hospitalization & Surgical Insurance**

All exchange students are required to purchase the compulsory NTU Group Hospitalization & Surgical Insurance (GHSI) even if they have already bought similar insurance in their home country.

Falling ill and being hospitalized in Singapore can be a financial drain on international students, who are not entitled to the medical subsidies that Singapore citizens enjoy. Besides the coverage it provides, the GHSI (subject to its terms and conditions) allows you to request a Letter of Guarantee from the underwriter and present it in lieu of the requisite deposit upon admission to government/restructured hospitals in Singapore.

For more coverage details, please refer to [www.ntughsi.com.sg](http://www.ntughsi.com.sg)

## Medical Information

Medical and counselling services are available on campus to cater to your health and wellness needs.

There are also clinics near campus should you feel unwell after office hours. For acute medical care and emergencies, please visit a hospital. The nearest hospital to NTU is the National University Hospital. Please refer to the **Group Hospitalisation and Surgical Insurance** to find out what is covered under the scheme.

## Medical Declaration

It is mandatory for all incoming students to highlight any past or present medical conditions in their online application.

This information is for the purpose of the student's well-being, such that relevant support may be rendered to ensure a positive immersion experience at NTU.
